Notable features:

A short row of old houses for which there are tax records of 1839. (It is probably the shed roof with the promenade porch which still has its 6/6 windows.) It may be that number 10 is half of the original house, which may have been a gable, set-back such as 21-23 N. Carrollton or 37-39 Parkin Street. All should be rehabilitated.

Environmental context:

Arlington Avenue is one of the oldest streets in the area. The street is wide with two-way traffic but dead-ends at Baltimore Street; large street trees are needed.
